

Drawing a family history worksheet

Use these internationally agreed pedigree symbols for individuals.

	Male	Female	Sex Unknown
Individual			
Affected individual (symbol coloured in)			
Multiple individuals			
Deceased			
Pregnancy			
Miscarriage			
Person providing pedigree information			

Draw the genetic family history (pedigree) here

Join the pedigree symbols together by lines to show family relationships as in this diagram.

Marriage/partnership	
Divorce/separation	
Where the partners are blood relatives (consanguineous relationship)	
Children/siblings	
Identical twins (monozygotic)	
Non-identical twins (dizygotic)
